Background and Introduction

Background:

The Judiciary Performance Enhancement Committee (PEC) was established by the Hon. The Chief Justice on the 7th of February 2020, under Office Instrument No.1 of 2020 to handle activities relating to the implementation of the Performance Enhancement Tool. Its work follows the efforts of the earlier PEC of 2016.

Introduction:

It was envisaged that continuous monitoring of performance of the judiciary staff would help identify gaps & bottlenecks involved in judicial service delivery as well as improve accountability. The Judiciary has developed the Performance Enhancement Tool to enable it evaluate its efficiency and effectiveness. 3 2/8/2024

The Main Objective:

To develop and Implement an online Performance Enhancement System which provides for an impartial way of conducting performance management of Judges and Justices of the Superior Courts (Justices of the Supreme Court, Justices of Court of Appeal and High Court Judges) as well as other Judiciary staff.

The Specific Objectives:

- 1) To provide for quantitative and qualitative assessments for the Judicial and non-Judicial staff.
- 2) To provide for an appropriate Judicial Case Court Weighting Scheme
- 3) To provide mechanisms to safeguard the independence of Judiciary and its Judicial officers.
- 4) To provide efficient mechanisms for managing and improving the Performance Monitoring and Evaluation System for Judges and Justices.
- 5) To provide for effective and efficient monitoring, supervision, appraisal, training and promotion of Judiciary staff.
- 6) To provide for guaranteed confidentiality and integrity of the appraisal process. 2/8/2024 5

The Justification For PET

- 1) The Justices at the Supreme Court, Court of Appeal and Judges of the High Court (International Crimes Division) sit in a Coram and hence their performance needs to be evaluated per Coram.
- 2) The management of cases, which is a core function of Judicial Officers, involves a number of players such as Police, Prosecutors, and Advocates who need to participate in the measurement of Performance.
- 3) The Constitutional independence of Judicial Officers in the course of their work poses great challenge in performance measurement using the Ministry of Public Service Appraisal form.
- 4) The Training programmes are not coherent with, or informed by the performance management process thus a need for an integrated Performance Management tool.

Cont'd: The Justification For PET

- The case of promotion for Judicial staff, and particularly Judges is as a result of 5) recommendations from the JSC, with the final appointing authority being the Executive. There is need of a robust performance management system that enhances performance and meritbased culture to inform decisions on promotion.
- The Performance management system need to be backed up by a culture that recognises and 6) rewards employee performance through incentives.

Due to the uniqueness of the Judicial work of case management, the appraisal system from the Ministry of Public Service was deemed inappropriate in the measurement of performance in the Judiciary. Thus the need to develop a tailor made online Performance Measurement Tool for the Judiciary was fronted to drive the Judiciary to the next level of performance management with the PET.

The PET tool was Launched at the last 21st Annual Judges Conference held on the **28th – 31st** January, 2019, by His Excellency the President of Uganda. 5

Assessing the Courts that sit in a Coram

In the case of appellate and other panel courts, the following scheme would apply;

- i. All Justices participating on the panel get the weight of the case as per the case category;
- ii. The Justice who writes the lead judgment gets an extra 50% of the case weight as per the category;
- iii. The Justice who writes a lengthy concurring judgment gets an extra 50% of the case weight as per the category;
- iv. The Justice who writes the dissent judgment (if any) gets an extra 50% of the case weight as per the category;
- v. The case weight score for the single Justice applications are allocated to the Justice concerned in handling the case matter.
